

Contributions regarding the following themes are expected:

- Corpora: digital corpora, social networks, literary corpora, controversies, multimodal corpora, multimedia, SMS, monolingual and multilingual corpora.
- Corpus tools: authorship recognition, discourse characterization, parallel texts alignment, tagging, visualization, dictionary managing, interoperability, toponyms extraction, user-friendly interfaces
- Methods: multi-fractal analyses, statistical methods, supervised learning, qualitative linguistics, a.s.o.

Not only will these themes spark discussions on the latest developments and favour dialogue between different fields, they are expected to deal with the following lines of questioning:

- Which are the current corpus based needs, in any domain?
- How can these exploration, visualization and annotation tools contribute to present-day research?
- What are the limits to these tools and methods, regarding automatic language processing, textometry, lexicometry and data visualization?

Submissions are to be sent [here](#) before September 25th 2017. They will be independently evaluated by two members of the scientific committee, in accordance to the following criteria:

- Compliance with the workshop's general theme,
- Scientific interest,
- Clarity of the subject,
- Technical feasibility.

The poster presentations will be held in English, but the flash presentations will be given in either English or French.

The scientific committee will follow up on the submissions on **October 15th 2017**.

The contributors will be invited to produce an article for publication, following the workshop.

This workshop is organized by the [PEPS CNRS/UPE project](#).

Important dates:

- Deadline for submission: **September 25th 2017**,
- Decision of acceptance: **October 15th 2017**,
- **November 17th 2017**: final versions of the poster presentations,
- **November 24th-25th 2017**: ECLAVIT Workshop.

Presentation format:

Poster presentations: The authors whose presentations are selected will be asked to send their posters in PDF format so that they can be uploaded to the workshop's website. During the plenary session, they will be able to project a slideshow, which they will be asked to send a few days before the event. The printed version of the posters should be of A0 size. The paper posters will be put up on the morning of November 24th.

Round tables: The scientific committee will contact the authors regarding their individual interventions.

Training session: The scientific committee will contact the contributors regarding the installation of the softwares if needed.
